Project [Project name] — Financial and Tax [HR, IT, etc.] due diligence

In accordance with the terms of reference set out in our engagement letter dated [date] (“Engagement Letter”), we enclose a copy of our draft financial and tax [HR, IT etc.] due diligence report (“report”) on [Target name] (“Target”) based on the scope of work agreed with you. Our work commenced on [date] and our fieldwork for this draft report was completed on [date]. We have not undertaken to update our report for events or circumstances arising after that date.

We draw your attention to the following matters:

- Our work on historical trading comprises the financial years ended [31 December 2022 and 2023, and year-to-date period until 30 June 2024]. With respect to prospective financial trading, our scope of work includes [2024] budget and [2025-2026] forecast.
- We have only covered the specific financial and tax issues agreed in the scope of work. We have not covered e.g., commercial, operational, environmental or legal matters [define the coverage].
- The value creation opportunities shown are indicative estimates only and are based on limited information, high-level analysis and assumptions. The analysis have been carried out using limited data and do not comprise a detailed diagnostic. Accordingly, the analysis needs to be interpreted with caution.

Please review the following documents in the appendices, which set out the basis and limitations of our work performed:

Important notice

Basis of preparation

Scope of work

In accordance with our Engagement Letter and its attachments, you have agreed that our final report shall take precedence over this draft, and that no reliance will be placed by you on any draft report other than at your own risk.

[You will be aware that we have not yet completed the work required to enable us to report in accordance with the terms of reference set out in our Engagement Letter. You should, therefore, bear in mind when considering the draft report that the information contained within it and our preliminary conclusions based thereon may alter or be refined as our work progresses.] You should note that our findings do not constitute recommendations to you as to whether or not you should proceed with the proposed transaction.

Our report is confidential and is released to you on the basis that it is not to be copied, referred to or disclosed, in whole or in part, to any other party without our prior written consent, except as specifically provided in our Engagement Letter. In accordance with the Engagement Letter, you may disclose our report to your legal and other professional advisers in order to seek advice in relation to our work for you, provided that when doing so you inform them that, to the fullest extent permitted by law, we accept no responsibility or liability to them in connection with our report and our work for you.

We would be pleased to receive your observations on our report. Please feel free to contact us to discuss.

Yours sincerely

Important notice (1/2)

General

Our report is for the benefit and information only of those parties who have accepted the terms and conditions of our Engagement Letter and should not be copied, referred to or disclosed, in whole or in part, without our prior written consent, except as specifically permitted in our Engagement Letter. To the fullest extent permitted by law, we will not accept responsibility or liability to any other party (including those parties' legal and other professional advisers) in respect of our work or the report.

Our work commenced on [date] and our fieldwork for this report was completed on [date]. We have not undertaken to update our report for events or circumstances arising after that date.

In preparing our report, our primary source has been Target's internal management information and representations made to us by Management of Target. We do not accept responsibility for such information which remains the responsibility of Management. Details of our principal information sources are set out in the basis of preparation and we have satisfied ourselves, so far as possible, that the information presented in our report is consistent with other information that was made available to us in the course of our work in accordance with the terms of our Engagement Letter. We have not, however, sought to establish the reliability of the sources by reference to other evidence.

This engagement is not an assurance engagement conducted in accordance with any generally accepted assurance standards and consequently no assurance opinion is expressed.

The contents of this report have not been reviewed by the Management of Target and the factual accuracy of this report has not been confirmed by the Management. [The contents of this report have been reviewed by the Management of Target and the factual accuracy of this report has been confirmed.]

We accept no responsibility or liability for the findings or reports of legal and other professional advisers, even though we have referred to their findings and/or reports in our report.

KPMG approach

Our report makes reference to 'KPMG Analysis'; this indicates only that we have (where specified) undertaken certain analytical activities on the underlying data to arrive at the information presented; we do not accept responsibility for the underlying data.

The analysis of 'normalized'/'underlying' earnings and working capital is for indicative purposes only. We have sought to illustrate the effect on EBITDA/working capital of adjusting for those items identified in the course of our work that may be considered to be 'non-recurring' or 'exceptional' using criteria established by the Vendors/Target. However the selection and quantification of such adjustments are necessarily judgmental. Because there is no authoritative literature or common standard with respect to the calculation of 'normalized'/'underlying' earnings/working capital, there is no basis to state whether all appropriate and comparable adjustments have been made. In addition, while the adjustments may indeed relate to items which are 'non-recurring' or 'exceptional' or otherwise unrepresentative of the trend, it is possible that earnings/working capital for future periods may be affected by such items, which may be different from the historical items.

The last twelve months/LTM run rate analysis has been prepared for illustrative purposes. There is no authoritative literature or common standard with respect to the calculation of 'run rate' EBITDA, and therefore there is no basis on which to state whether, in the illustrative analysis of 'run rate' EBITDA, all appropriate and comparable adjustments have been made. We have set out in our report the basis on which items have been included in or excluded from the run rate calculations for particular years. It is for you to satisfy yourselves as to whether the items included or excluded are appropriate for your purposes. The decision as to what items should be included in or excluded from the calculation of 'run rate' EBITDA is highly judgmental; you may choose to interpret the information presented differently.

The prospective financial information set out within our report has been prepared by Target; we do not accept responsibility for such information. We must emphasize that the realization of the prospective financial information is dependent on the continuing validity of the assumptions on which it is based. The assumptions will need to be reviewed and revised to reflect any such changes in trading patterns, cost structures or the direction of the business as they emerge. We accept no responsibility for the realization of the prospective financial information. Actual results are likely to be different from those shown in the prospective financial information because events and circumstances frequently do not occur as expected, and the differences may be material.

Important notice (2/2)

Benchmarking [Include if separate benchmarking analysis is carried out]

The benchmarking analysis is based on information obtained from comparable industries and/or activities. As with any benchmarking analysis there is a risk that the information is not fully comparable. If the benchmarked information is based on aggregated industry information, access to more detailed information could have led to the analyses being presented in another manner or to different data being presented. We accept no responsibility for such differences.

The benchmarking analysis presented in this report presents aggregated or company level data collected from third-party data sources as referenced. We accept no responsibility for the correctness of the data obtained from third-party sources.

Benchmarking results should be treated as indicative, as benchmarking results will vary based on the industry segmentation, geography selected, and periodicity. While scoring lower or higher than peers on a select key performance indicators ("KPIs") may indicate underperformance or superior performance, underlying factors must be understood, including the interaction between different KPIs.

Value creation potential [Include if VC work is carried out]

During the course of our work, we have attempted to identify potential value creation opportunities to facilitate discussions on areas of potential value enhancement. The value enhancement opportunities shown are indicative estimates only and are based on limited information, high level analysis and assumptions. The opportunity analysis have been carried out using limited data and do not comprise a detailed diagnostic. Accordingly, the analysis needs to be interpreted with caution. The assumptions used in the calculation of base case/stretch case upside potential are set forth within our analysis.

KPMG gives no assurance over the achievement of any value enhancement opportunities included in the report. In addition, since the value creation opportunities and the assumptions on which they are based relate to the future they may also be affected by unforeseen events and circumstances. Achievement of any value creation opportunity will also be dependent on the implementation of action plans and the steps taken by management.

The benchmarking information used in the value creation analysis is based upon publicly available information - there can be no guarantee that such information is accurate as of the date it was obtained or that it will continue to be accurate in the future. KPMG have relied upon and assumed, without independent verification, the accuracy and completeness of information available from public sources.

The value enhancement opportunities shown within are not intended to fully capture all the inter-relationships that exist between the individual opportunity areas. As a result, it may not be possible to realize some or all of the opportunities identified. Any actions that you choose to take as a result of the directional views provided, are the responsibility of the management team. KPMG will not use the information presented to make any decisions or judgement on behalf of management. Such decisions are the responsibility of the management team who must designate an individual who possesses the suitable skill, knowledge and experience to be responsible at all times for these decisions.

In performing the value creation potential analysis, we have also recommended certain "Next steps to validate opportunity". We are happy to discuss how we can support you with these steps, subject to contract.

Pre-Deal PPA benchmarking – KPMG database [Include if separate PPA benchmarking analysis is carried out]

The database consists of PPAs carried out by KPMG globally and information from the public domain; any conclusions therefore drawn using the database are however limited due to having directly comparable data (e.g. by operations, market, and size).

The benchmarking analysis set out within this report is based on information on comparable industries, companies and/or activities obtained from:

- publicly available information - there can be no guarantee that such information is accurate as of the date it was obtained or that it will continue to be accurate in the future. KPMG has relied upon and assumed, without independent verification, the accuracy and completeness of information available from public sources. We accept no responsibility for the correctness of the data obtained from public or third-party sources;
- KPMG proprietary benchmarking data. Where data is sourced from KPMG's proprietary benchmarking database, it is based on aggregated data and includes at least [XX] entities, and the metrics are calculated as an average.

As with any benchmarking analysis there is a risk that the information utilized is not fully comparable. Where the benchmarking analysis is based on aggregated information, it is also the case that access to more detailed information could have led to the analysis being presented in a different manner or to different data being presented. In addition, such analysis will vary based on factors such as the industry segmentation, the selected geography selected, and periodicity. The benchmarking analysis should therefore be treated with caution and as directional and indicative only. Further, detailed work would be needed to determine the identify and value the acquired intangibles.

Valuation (NPV) analysis [Include if VCM work is carried out]

The indicative NPV impact of the potential value creation opportunities presented in this [report], is set out in the Value creation potential important notice. The NPVs of the value enhancement opportunities are calculated separately, with each value creation opportunity assessed on a standalone basis.

The NPVs of the value creations opportunities are indicative estimates only which are based on limited information, high-level analysis and assumptions.

KPMG gives no assurance over the achievement of any value enhancement opportunities included in the report. In addition, since the value creation opportunities and the assumptions on which they are based relate to the future they may also be affected by unforeseen events and circumstances. Achievement of any value creation opportunity will also be dependent on the implementation of action plans and the steps taken by management.

In particular: (i) we have not assessed the identified valuation creation opportunities independently, the implementation cost of realizing those opportunities or their timing; and (ii) we have not sought to independently assess the risks associated with the identified value creation opportunities but have relied on your internal assessment of the discount rate and risks inherent in the business as well as your terminal value growth rate.

To the extent any or all assumptions may differ this could have a material impact on the resulting NPV analysis. As such, this does not present KPMG's independent view on the value of any or all identified impacts.

Our Report makes reference to "KPMG analysis", this indicates only that we have (where specified) undertaken certain analytical activities on the underlying data to arrive at the information presented.

Basis of preparation

Scope of work

KPMG [full legal name] ('KPMG') has been engaged by Client [full legal name] to prepare a financial and tax due diligence report in connection with the potential acquisition of [full legal name] ('Target'). The report has been prepared in accordance with our engagement letter dated [date], which [will be included in the appendix of the final] report.

Our work on historical trading comprises the period [2022 to 2023 and year-to-date period until 30 June 2024]. With respect to prospective financial trading, our scope of work includes [2024] budget. We have analyzed the balance sheet as at 31 December [2022 and 2023, and 30 June 2024], and our analysis of net working capital was performed on monthly balance sheet captions for the period [January 2022 to June 2024].

Our tax review has been focused on key tax risk areas, and is based on information made available by Management, as well as interviews with Management.

Please refer to the appendices for a detailed [scope reconciliation](#).

Access to management

During the course of our work our main points of contact have been the Management of Target, represented by [XX and YY].

We attended a meeting with Management on [date], and have had regular follow-up calls with Management and communication through email.

[Overall, we have had good access to Management, who have been helpful and put a significant amount of time and effort into this due diligence process by responding to our questions and requests in a timely manner.]

The contents of our report have not been reviewed by the Management of Target and the factual accuracy of this report has not been confirmed by the Management.]

Quality of information

The requested information has been provided through the virtual data room. As of the date of this report, all available requested information has been provided in a timely manner.

Our work has relied on certain key sources of information including, but not limited to; (1) [XXXXXX, (2) XXXXXX, and (3) XXXXXX]. We have had access to granular and relevant data i.e., transactional level), which in our view has formed a good basis for analyzing the key drivers of the business.

[Add potential critical information issues].

Project [Project name] — Financial and Tax [, HR, IT, etc.] due diligence

In accordance with the terms of reference set out in our engagement letter dated [date] (“Engagement Letter”), we enclose a copy of our financial and tax [HR, IT etc.] due diligence report (“report”) on [Target name] (“Target”) based on the scope of work agreed with you. Our work commenced on [date] and our fieldwork was completed on [date]. We have not undertaken to update our report for events or circumstances arising after that date.

We draw your attention to the following matters:

- Our work on historical trading comprises the financial years ended [31 December 2022 and 2023, and year-to-date period until 30 June 2024]. With respect to prospective financial trading, our scope of work includes [2024] budget and [2025-2026] forecast.
- We have only covered the specific financial and tax issues agreed in the scope of work. We have not covered e.g., commercial, operational, environmental or legal matters [define the coverage].
- The value creation opportunities shown are indicative estimates only and are based on limited information, high-level analysis and assumptions. The analysis have been carried out using limited data and do not comprise a detailed diagnostic. Accordingly, the analysis needs to be interpreted with caution.

Please review the following documents in the appendices, which set out the basis and limitations of our work performed:

Important notice

Basis of preparation

Scope of work

You should note that our findings do not constitute recommendations to you as to whether or not you should proceed with the proposed transaction.

Our report is confidential and is released to you on the basis that it is not to be copied, referred to or disclosed, in whole or in part, to any other party without our prior written consent, except as specifically provided in our Engagement Letter. In accordance with the Engagement Letter, you may disclose our report to your legal and other professional advisers in order to seek advice in relation to our work for you, provided that when doing so you inform them that, to the fullest extent permitted by law, we accept no responsibility or liability to them in connection with our report and our work for you.

We would be pleased to receive your observations on our report. Please feel free to contact us to discuss.

Yours sincerely
